V8 Engine Plenum Cover Installation Instructions

Compatible with 2005-2007 Ford Mustang GT's

1. Remove bolt caps on fuel rail studs. *(Inset 1)*
2. Using 8 mm wrench, remove 4 studs from left and right fuel rail brackets. *(Inset 2)*
3. Lower back of Engine Plenum Cover into position to clear the firewall. *(Inset 3)*
4. Align mounting holes in Engine Plenum Cover with those in plenum. *(Inset 4)*
5. Replace 4 studs in left and right fuel rails and tighten with 8 mm wrench. **IMPORTANT: Do not over tighten!** *(Inset 5)*
6. Call your friends over and show off your cool engine compartment.
